

My future

My name is Iva and I'm 14 years old. I live with my mum, dad, sister and my dog in Trogir. I go to primary school Petar Berislavic. The school is big and old. I'm in grade 8 now and soon I'm going to secondary school.

I'm still thinking which secondary school to choose. I'm a good student and I'm good at languages. My favourite subjects are Croatian and Biology. I'm not good at Maths and Chemistry so I will probably choose a school with as little maths as possible. I would like to get a summer job and earn some money so I can buy myself something.

I don't know what my future job will be because I don't know what I actually want to do in my future. I'm interested in foreign languages.

I can speak English and Italian. I have been learning Italian for 4 years. I don't have any hobbies. I'm excited about secondary school but I'm also sad because I have to leave my friends.
